I don't see any responses to comments after 8.7. the last date the document was modified is 07/02. Did your responses not get saved?

Kip:
I've drafted responses for most of the comments in Part 8 that didn't already have draft responses. There are a handful of them where it would be helpful to go back to the original comment for a bit more context. However, after looking around on the SharePoint site, I'm not sure how to get back to the original comment. Suggestion?

Thanks, Jenny
